MR. GEO. W. CAMPBELL, Tuskegee, Ala.
MR. M. B. SWANSON, " "
MR. LEWIS ADAMS, " "

REPORT.

The third annual financial report of the Tuskegee Normal School is herewith submitted, with schedules showing in detail the receipts and expenditures of the different departments of the school.

The school's growth since its organization, July 4th, 1881, has been steady, and of substantial character.

Its property unencumbered by debt, is valued at \$30,000.

The receipts from all sources were as follows:—

Donations from friends of the school North and South for building, current expenses, farm purchase and other purposes	\$ 6,290 44
From "John F. Slater Fund" for Industrial purposes	1,100 00
State appropriation for payment of teachers' salaries	3,000 00
Proceeds of suppers and entertainments by the teachers and students of the school	182 34
<hr/>	
Total from all sources	\$10,482 78

With the \$1,100 obtained from the "John F. Slater Fund" through Dr. A. G. Haygood, Agt., the industrial departments of the school have been partially equipped, the farm with mules, wagon and improved implements, a carpenter shop 30x50 built and supplied with necessary tools, the industrial room, where the young women are taught sewing in its details, with a sewing machine and other necessities. A wind mill that supplies water for Porter Hall was partly paid for from the same fund.

The \$350 given by a friend in Connecticut for farm purchase, is intended to pay for four hundred acres of woodland recently added to the farm.

The Boarding Department, opened last year, is in successful operation.

All non-resident students are required to board at the school. This enables the school to give them real home training.

Alabama Hall, to cost \$10,000, when completed, will supply dormitories for 75 girls, a dining room for all the students and other needed apartments.

The work on the building has progressed rapidly:—the students themselves having done a large part of it.

The donations of the friends of the school have enabled it to greatly increase its facilities for doing efficient work for its students.

This report is sent out in the hope that those who have helped us in the past year will continue their aid in the future.

SUMMARY OF RECEIPTS AND DISBURSEMENTS OF THE TUSKEGEE
NORMAL SCHOOL FOR THE FISCAL YEAR ENDING

AUGUST 31ST, 1884.

RECEIPTS.

Donations to Building Fund.....	\$ 5,881 24

* For part of term.

+Teacher in training school; remainder of salary paid from County School Fund.

GENERAL INFORMATION.

The Tuskegee Normal School was established by act of the Legislature of Alabama passed in 1880, and was opened in a church July 4th, 1881 with thirty students and one teacher.

The corner stone of the present large building (Porter Hall) was laid at the close of the first session and the building was completed during the second session at a cost of \$6000.

The school is now (Jan. 1st '85) in its, fourth session, has ten teachers and officers and an enrollment of 184 students representing nearly every county in Alabama and 4 states.

The appropriation of \$2000, annually made by the State Legislature at first for the support of the school, was increased at the session of 1882 to \$3,000 a year.

The State Fund is used entirely to pay tuition.

For money for buildings, land, apparatus etc., the school looks to its friends North and South.

The property is deeded to a Board of Trustees, six of whom reside in the North and five in the South.

It is undenominational but earnestly religious in its teachings.

Work is required of all the students for purposes of discipline and instruction and of teaching the dignity of labor. A few students with no money work all day and attend school at night. In this way they earn money with which to pay their expenses in day school, the succeeding term.

INDUSTRIES AND NEEDS.

FARM.

The farm is a source of profit to the school. The students take hold of the work in a commendable way.

About 200 fruit trees, apple and peach, have been set out this year and form the beginning of an orchard.

More tools of an improved kind are needed on the farm, and the soil which has been impoverished, needs fertilizing.

BRICK-YARD.

400,000 bricks were made this year at the school brick-yard. The larger number of these was used in building Alabama Hall.—The brick-yard work is a great help to students who pay a part of their board bills in labor.

CARPENTER-SHOP.

A carpenter-shop 30x50 has been built and partly stocked with needed tools. Ten young men are learning the carpenter's trade under an experienced foreman.

The framing for Alabama Hall has been made entirely in the shop.

PRINTING OFFICE.

The school¹ has purchased an excellent job printing press and secured the services of a practical printer. A few students will be taught something of printing.

WIND-MILL.

The wind-mill spoken of in the last report has been put in place and is working satisfactorily.

SEWING-ROOM.

The industrial or sewing room for the girls has been fitted up with funds from the "John F. Slater Fund."

Two sewing machines have been provided and the girls are now taught to cut and make garments for sale to the students and to outside parties.

POULTRY-YARD.

A start has been made in the raising of fowls. We hope to make this industry profitable to the school.

SAW-MILL.

The school owns a large tract of valuable timber land. With a saw-mill the timber could be sawed and used in the construction of needed buildings or sold.

IN GENERAL.

There have been expended on Alabama^a Hall to date (Jan. 1st 1885) for material and labor \$6,500. The estimated cost of the building when completed is \$10,000—\$8,900, of this amount have been raised.

We confidently hope to secure the remainder by the close of this session in May 1885. The work on the building is going forward everyday. The students are now in uncomfortable rooms, so that the new building is greatly needed.

It is the plan of the school as far as possible to produce on the place everything used.

We are trying to make the school as nearly self supporting as possible.

We have to report the absence during this year of Miss Olivia A Davidson, the untiring lady principal of the school, who has been ill.

Her health has been nearly restored and she will return to the school soon.

B. T. WASHINGTON, *Principal.*

OLIVIA A. DAVIDSON, *Assis't. Prin.*

FORM OF BEQUEST.

I give and devise to the Trustees of the Tuskegee Normal School the sum of —— dollars etc. payable etc.
